

June 24, 2022

Dear Property Owner,

Smithfield Township requires all applicants pursuing land development approvals to notify abutting property owners of pending applications.

The new owner of the Stroudsburg-Pocono Airport is planning to develop the property at 136/140 Airstrip Road with a new +/- 131,250 sf light manufacturing facility to support their 3D printing technology. Plans have been submitted to the Township and the project is currently under review. The facility is planned at the western end of the property.

The project may be presented to the Township Planning Commission and Board of Supervisors at upcoming meetings this summer and fall. The Township website contains a calendar of events and agendas for the meetings.

There is no action required on your part, this is simply a notice of the proposed project.

Sincerely,
T&M Associates
