

SECTION 1. The Smithfield Township Code of Ordinances, Chapter 10, Part 2 – Noise Nuisances is hereby established as follows:

§ 10-301 Definitions.

For the purposes of this chapter the following terms, phrases, words and their derivations shall have the meanings given herein. When not inconsistent with the context, words used in the present tense include the future; words in plural include the singular; and words in the singular include the plural. Any personal pronoun shall be construed so as to mean either the masculine, feminine, or neuter gender, as the context may require; and the word "shall" is always mandatory and not merely precatory.

BACKGROUND SOUND LEVEL

The measured sound level in an area, exclusive of extraneous sounds and the sound contributing of the specific source in question.

BOARD OF SUPERVISORS

The Board of Supervisors of Smithfield Township, Monroe County, Pennsylvania.

CONSTRUCTION

Any site preparation, assembly, erection, demolition, substantial repair, maintenance, alteration, or similar action for or of public or private rights-of-way, structures, utilities, or similar property.

dBA

The sound level in decibels, reported as measured by a sound level measuring instrument having an "A" weighting network which discriminates against the lower frequencies according to a relationship approximating the auditory sensitivity of the human ear. The level so read is designated dB(A) or dBA.

dB(C)

The sound level as measured using the "C" weighting network with a sound level meter meeting the standards set forth in ANSI S1.4-1983 or its successors. The unit of reporting is dB(C). The "C" weighting network is more sensitive to low frequencies than is the "A" weighting network.

DECIBEL (dB)

The practical unit of measurement for sound pressure level; the number of decibels of a measured sound is equal to 20 times the logarithm to the base 10 of the ratio of the sound pressure of the measured sound to the sound pressure of a standard sound (20 micropascals); abbreviated "dB."

DURATION

The length of time noise continues or exists.

EMERGENCY VEHICLE

A vehicle defined in Pennsylvania 75 Pa.C.S. § 102.

EMERGENCY WORK

Any work or action necessary at the site of an emergency to restore or deliver essential services including, but not limited to, repairing water, gas, electricity, telephone, sewer facilities, or public transportation facilities, removing fallen trees on public rights-of-way, dredging navigational waterways, or abating life-threatening conditions or a state of emergency declared by a governing agency.

IMPULSE SOUND

Includes sudden and sharp sounds or repetitive sounds that have tendency to startle, disrupt, or annoy, and which may include the elements of both sound and vibration. Non-exhaustive examples of impulse sounds include explosions, air horns, nail guns, fireworks and firecrackers, and hammering.

MOTOR VEHICLE

Any vehicle that is propelled other than by human or animal power on land.

MUFFLER

A properly functioning sound dissipative device or system for abating the sound on engines or equipment where such device is part of the normal configuration of the equipment.

MULTI-DWELLING UNIT BUILDING

Any building comprising two or more dwelling units, including, but not limited to, apartments, condominiums, co-ops, multiple family houses, townhouses, and attached residences.

MIXED-USE PROPERTY

Any distinct parcel of land that is used for more than one category of activity. Examples include, but are not limited to:

- A. A commercial, residential, industrial or public service property having boilers, incinerators, elevators, automatic garage doors, air conditioners, laundry rooms, utility provisions, or health and recreational facilities, or other similar devices or areas, either in the interior or on the exterior of the building, which may be a source of elevated sound levels at another category on the same distinct parcel of land; or
- B. A building, which is both commercial (usually on the ground floor) and residential property, located above, below or otherwise adjacent to.

NOISE

Any unwanted sound or vibration that encroaches upon the real property of another at any time-of-day. Noise may consist of multiple factors. Noise factors may include, but are not limited to, time- of-day or time-of-week; structure of the sound, e.g., impulse sound and sounds defined in ISO 12001 standards; frequency of the sound occurrence (how often); duration; relative sound level compared to background sound level, e.g., "loudness"; the waveform frequency of the sound, e.g., "high" or "low" pitch; and nature of the sound,

e.g., screaming or screeching.

NOISE DISTURBANCE

A noise disturbance is any noise that exceeds acceptable decibels as demonstrated within §10-305 and/or §10-306.

NOISE CONTROL OFFICER

Noise Control Officer (NCO) means employees or consultants of the Township which is certified to perform noise enforcement activities specified within this noise control ordinance. All NCOs must receive noise enforcement training and be currently certified in noise enforcement. The employee must be acting within his or her designated jurisdiction and must be authorized to issue a summons.

NUISANCE

The unreasonable, unwarrantable or unlawful use of public or private property which causes injury, damage, hurt, inconvenience, annoyance or discomfort to any person in the legitimate enjoyment of his reasonable rights of person or property.

OWNER

A person owning, leasing, occupying or having charge of any premises within the Township.

PERMIT

To suffer, allow, consent, or let; to give, leave or license; to acquiesce by failure to prevent; or to expressly accept or agree, to the doing of an act.

PERSON

Includes individual natural persons, firms, partnerships, joint ventures, societies, associations, clubs, trustees, trusts, corporations, companies or organizations of any kind; or any officers, agents, employees, factors or any kind of personal representative of any kind of the above, in any capacity, acting either for her/himself, or for any other person, under either personal appointment or pursuant to law.

PLAINLY AUDIBLE

Any noise that can be heard by a person of normal hearing. Words, phrases, or specific noise signatures need not be discernible or identifiable. Plainly audible does not implicate issues of subjective "loudness" – the plainly audible standard simply determines whether any noise can be heard regardless of the perceived "loudness." Plainly audible observation alone is sufficient to support and prove a noise disturbance.

PREMISES

Any building, structure, land, including yards, lots, courts, owned or controlled by a person.

PROPERTY LINE

The real or imaginary line and its vertical extension which separates real property owned

or controlled by a person from contiguous real property owned or controlled by another person and separates real property from the public premises. Property lines may sometimes be ambiguous or difficult to determine even by professionals. Thus, the use of property line for purposes of this chapter refers to the relative or apparent property delineations and survey-quality precision is not required, intended, or desired.

REAL PROPERTY LINE

A real property line is either:

- A. the vertical boundary that separates one parcel of property (i.e., lot and block) from another residential or commercial property;
- B. the vertical and horizontal boundaries of a dwelling unit that is part of a multi-dwelling unit building; or
- C. on a mixed-use property as defined herein, the vertical or horizontal boundaries between the two portions of the property on which different categories of activity are being performed (e.g., if the mixed-use property is a building which is residential upstairs and commercial downstairs, then the real property line would be the interface between the residential area and the commercial area, or if there is an outdoor sound source such as an HVAC unit on the same parcel of property, the boundary line is the exterior wall of the receiving unit).

Note - this definition shall not apply to a commercial source and a commercial receptor which are both located on the same parcel of property (e.g., a strip mall).

SOUND

An oscillation in pressure, particle displacement, particle velocity or other physical parameter in a medium with internal forces that causes compression and rarefaction of that medium.

SOUND PRODUCTION DEVICE

Any device whose primary function is the production of sound, including, but not limited to any, musical instrument, loudspeaker, radio, television, digital or analog music player, public address system or sound-amplifying equipment.

SOUND REDUCTION DEVICE

Any device, such as a muffler, baffle, shroud, jacket, enclosure, isolator, or dampener provided by the manufacturer with the equipment, or that is otherwise required, that mitigates the sound emissions of the equipment.

TOWNSHIP

The Township of Smithfield, Monroe County, Pennsylvania.

WEEKDAY

Any day that is not a federal holiday, and beginning on Monday at 7:00 a.m. and ending

on the following Friday at 6:00 p.m.

WEEKENDS

Begin on Friday at 6:00 p.m. and end on the following Monday at 7:00 a.m.

§ 10-302 Applicability

A. This noise ordinance applies to sound from the following property categories: [note – would it be better to use zoning districts instead of property categories? May need to define?]

Commented [JH1]: Defer to Ron, needs additional thoughts

1. Industrial facilities;
2. Commercial facilities;
3. Community service facilities;
4. Residential properties;
5. Mixed-use properties;
6. Public and private right-of-ways;
7. Public spaces; and
8. Multi-dwelling unit buildings.

B. This noise ordinance applies to sound received at the following property categories:

1. Commercial facilities;
2. Community service facilities (i.e. non-profits and/or religious facilities)
3. Residential properties;
4. Mixed-use properties;
5. Multi-dwelling unit buildings.

§ 10-303 Enforcement Officers

- A. Noise Control Officers shall have the authority within their designated jurisdiction to investigate suspected violations of any section of this ordinance and pursue enforcement activities.
- B. Noise Control Investigators shall have the authority within their designated jurisdiction to investigate suspected violations of any section of this ordinance that do not require the use of a sound level meter (i.e., plainly audible, times of day and/or distance determinations) and pursue enforcement activities.
- C. Noise Control Officers and Investigators may cooperate with NCOs and NCIs of an adjacent municipality in enforcing one another's municipal noise ordinances.

§ 10-304 Measurement Protocols

- A. Sound measurements made by a Noise Control Officer shall conform to the procedures set forth, except that interior sound level measurements shall also conform with the procedures set forth in §10-304.B of this ordinance and with the definition of "real property line" as contained herein.

- B. When conducting indoor sound level measurements across a real property line the measurements shall be taken at least three feet from any wall, floor or ceiling and all exterior doors and windows may, at the discretion of the investigator, be closed. The neighborhood residual sound level shall be measured in accordance with N.J.A.C. 7:29-2.9(b)2. When measuring total sound level, the configuration of the windows and doors shall be the same and all sound sources within the dwelling unit must be shut off (e.g., television, stereo). Measurements shall not be taken in areas which receive only casual use such as hallways, closets and bathrooms.

§ 10-305 Maximum Permissible Sound Levels

- A. No person shall cause, suffer, allow, or permit the operation of any source of sound on any source property listed in III.(A) above in such a manner as to create a sound level that equals or exceeds the sound level limits set forth in Tables I, II or III when measured at or within the real property line of any of the receiving properties listed in Tables I, II or III except as specified in VI(B).
- B. Impulsive Sound. Between 7:00 a.m. and 10:00 p.m., impulsive sound shall not equal or exceed 80 decibels. Between 10:00 p.m. and 7:00 a.m., impulsive sound which occurs less than four times in any hour shall not equal or exceed 80 decibels. Impulsive sound which repeats four or more times in any hour shall be measured as continuous sound and shall meet the requirements as shown in Tables I and II.

**TABLE I
MAXIMUM PERMISSIBLE A-WEIGHTED SOUND LEVELS
WHEN MEASURED OUTDOORS**

RECEIVING PROPERTY CATEGORY	Residential property, or residential portion of a multi-use property		Commercial facility, non-residential portion of a multi-use property, or community service facility
TIME	7 a.m.-10 p.m.	10 p.m.-7 a.m.	24 hours
Maximum A-Weighted sound level standard, dB	65	50	65

**TABLE II
MAXIMUM PERMISSIBLE A-WEIGHTED SOUND LEVELS**

WHEN MEASURED INDOORS

RECEIVING PROPERTY CATEGORY	Residential property, or residential portion of a multi-use property		Commercial facility or non-residential portion of a multi-use property
TIME	7 a.m.-10 p.m.	10 p.m.-7 a.m.	24 Hours
Maximum A-Weighted sound level standard, dB	55	40	55

Note: Table II shall only apply when the source and the receptor are separated by a real property line and they also share a common or abutting wall, floor or ceiling, or are on the same parcel of property.

**TABLE III
MAXIMUM PERMISSIBLE OCTAVE BAND
SOUND PRESSURE LEVELS IN DECIBELS**

Receiving Property Category	Residential property, or residential portion of a multi-use property		Residential property, or residential portion of a multi-use property		Commercial facility, non-residential portion of a multi-use property, or community service facility	Commercial facility or non-residential portion of a multi-use property
	OUTDOORS		INDOORS		OUTDOORS	INDOORS
Octave Band Center Frequency, Hz.	Octave Band Sound Pressure Level, dB		Octave Band Sound Pressure Level, dB		Octave Band Sound Pressure Level, dB	Octave Band Sound Pressure Level, dB
Time	7 a.m.-10 p.m.	10 p.m.-7 a.m.	7 a.m.-10 p.m.	10 p.m.-7 a.m.	24 hours	24 hours
31.5	96	86	86	76	96	86

63	82	71	72	61	82	72
125	74	61	64	51	74	64
250	67	53	57	43	67	57
500	63	48	53	38	63	53
1,000	60	45	50	35	60	50
2,000	57	42	47	32	57	47
4,000	55	40	45	30	55	45
8,000	53	38	43	28	53	43

Note: When octave measurements are made, the sound from the source must be constant in level and character. If octave band sound pressure level variations exceed plus or minus 2 dB in the bands containing the principal source frequencies, discontinue the measurement.

§ 10-306 Sound Production Devices

No person shall cause, suffer, allow, or permit the operation of any source of sound on any source property listed in III.(A) above in such a manner as to create a sound level that equals or exceeds the sound level limits set forth in Tables I, II or III when measured at or within the real property line of any of the receiving properties listed in Tables I, II or III except as specified in VI(B).

**TABLE IV
MAXIMUM PERMISSIBLE INCREASE IN TOTAL SOUND LEVELS
WITHIN A RESIDENTIAL PROPERTY**

Weeknights 10:00 p.m. - 7:00 a.m. Weekend nights 11:00 p.m. and 9:00 a.m.	All other times
3 dB(C)	6 dB(C)

§ 10-307 Restricted Uses and Activities

The following standards shall apply to the activities or sources of sound set forth below:

- A. Excluding emergency work, power tools, home maintenance tools, landscaping and/or yard maintenance equipment used by a residential property owner or tenant shall not be operated between the hours of 8:00 p.m. and 8:00 a.m., unless such activities can meet the applicable limits set forth in Tables I, II or III. At all other times the limits set forth in Tables I, II or III do not apply. All motorized equipment used in these activities shall be operated with a

muffler and/or sound reduction device.

- B. Excluding emergency work, power tools, landscaping and/or yard maintenance equipment used by nonresidential operators (e.g. commercial operators, public employees) shall not be operated on a residential, commercial, industrial or public (e.g. golf course, parks, athletic fields) property between the hours of 6:00 p.m. and 8:00 a.m. on weekdays, or between the hours of 6:00 p.m. and 9:00 a.m. on weekends or federal holidays, unless such activities can meet the limits set forth in Tables I, II or III. At all other times the limits set forth in Tables I, II or III do not apply. All motorized equipment used in these activities shall be operated with a muffler and/or sound reduction device.
- C. All construction and demolition activity, excluding emergency work, shall not be performed between the hours of 6:00 p.m. and 7:00 a.m. on weekdays, or between the hours of 6:00 p.m. and 9:00 a.m. on weekends and federal holidays, unless such activities can meet the limits set forth in Tables I, II or III. At all other times the limits set forth in Tables I, II or III do not apply. All motorized equipment used in construction and demolition activity shall be operated with a muffler and/or sound reduction device.
- D. Motorized snow removal equipment shall be operated with a muffler and/or a sound reduction device when being used for snow removal. At all other times the limits set forth in Tables I, II or III do not apply.
- E. All interior and exterior burglar alarms of a building or motor vehicle must be activated in such a manner that the burglar alarm terminates its operation within five (5) minutes for continuous airborne sound and fifteen (15) minutes for intermittent sound after it has been activated. At all other times the limits set forth in Tables I, II or III do not apply.
- F. Self-contained, portable, non-vehicular music or sound production devices shall not be operated on a public space or public right-of-way in such a manner as to be plainly audible at a distance of 50 feet in any direction from the operator between the hours of 8:00 a.m. and 10:00 p.m. Between the hours of 10:00 p.m. and 8:00 a.m., sound, operated on a public space or public right-of-way, from such equipment shall not be plainly audible at a distance of 25 feet in any direction from the operator;
- G. It shall be unlawful for any property owner or tenant to allow any domesticated or caged animal to create a sound across a real property line which unreasonably disturbs or interferes with the peace, comfort, and repose of any resident, or to refuse or intentionally fail to cease the unreasonable noise when ordered to do so by a Noise Control Officer or Noise Control Investigator. Prima facie evidence of a violation of this section shall include but not be limited to:
 1. Vocalizing (howling, yelping, barking, squawking etc.) for five (5) minutes without interruption, defined as an average of four or more vocalizations per minute in that period; or,
 2. Vocalizing for twenty (20) minutes intermittently, defined as an average of two vocalizations or more per minute in that period.

It is an affirmative defense under this subsection that the dog or other animal was intentionally provoked to bark or make any other noise.

§ 10-308 Motor Vehicles

Violations of each paragraph of this section shall be considered purposeful and therefore non-minor violations.

- A. No person shall remove or render inoperative, or cause to be removed or rendered inoperative or less effective than originally equipped, other than for the purposes of maintenance, repair, or replacement, of any device or element of design incorporated in any motor vehicle for the purpose of noise control. No person shall operate a motor vehicle or motorcycle which has been so modified. A vehicle not meeting these requirements shall be deemed in violation of this provision if it is operated stationary or in motion in any public space or public right-of-way.
- B. No motorcycle shall be operated stationary or in motion unless it has a muffler that complies with and is labeled in accordance with the Federal Noise Regulations under 40 CFR Part 205.
- C. Personal or commercial vehicular music amplification or reproduction equipment shall not be operated in such a manner that it is plainly audible at distance of 25 feet in any direction from the operator between the hours of 10:00 p.m. and 8:00 a.m.
- D. Personal or commercial vehicular music amplification or reproduction equipment shall not be operated in such a manner that is plainly audible at a distance of 50 feet in any direction from the operator between the hours of 8:00 a.m. and 10:00 p.m.

§ 10-309 Exemptions.

The following activities shall be exempt from the provisions of this chapter:

- A. Noise as safety signals, warning devices, emergency pressure relief valves or other sound needed to alert people about an emergency or warn of an imminent hazardous situation.
- B. Noise resulting from emergency work and noise emanating from an authorized emergency vehicle or a vehicle operated by a gas, electric, communications, or water utility when responding to an imminent emergency.
- C. Noise resulting from public festivals, celebrations, or other lawfully authorized and permitted public gatherings.
- D. Noise resulting from an athletic, recreational, or other such permitted outdoor activity on fields and/or sites specifically designed for that use.
- E. The provision, repair and maintenance of municipal services or public utilities.
- F. The sounding of bells, chimes and carillons used for religious purposes or in conjunction with national celebrations or public holidays.
- G. The operation of lawn care, snow removal equipment, and other household maintenance

equipment and tools.

- H. The operation of airplanes, helicopters and normal activities of properly licensed airports; trains operating on railroads.
- I. The operation of all motor vehicles with stock mufflers being operated on public or state roads.
- J. Activities permitted by special waiver, as provided herein, according to the terms and conditions of said waiver.
- K. Any reasonable noise created by a government entity in performance of an official and necessary duty.
- L. Any activity the regulation of which has been expressly preempted by Pennsylvania statute or regulation.

§ 10-310 Enforcement.

Provisions of this chapter may be enforced by any Noise Control Officer of the Township. Enforcement may also be by any person who, after prior notice is given as required, shall, as an affiant, institute a private criminal proceeding by filing a complaint with the District Magistrate as provided by law.

§ 10-311 Notice Required.

- A. Violations determined by the Noise Control Officer of the Township. Evidence of violation of this chapter includes noise that is above the measurement protocols demonstrated in §10-305 and/or §10-306 at any real property line of the property on which the source of the noise is generated.
- B. Prior to the filing of a fine by the Township's Noise Control Officer for violation of this ordinance, it shall be necessary to serve written notice upon the occupant of the property in one of the following ways:
 - 1. By mailing a copy of the notice to the occupant by any form of mail requiring a receipt signed by the occupant.
 - 2. By personal delivery of notice to the occupant.
- C. Form to be provided. Notice required under this section must be given on a form prescribed and provided by the Township. Said required notice may be executed and served as required by the aggrieved party or by a Township official.
- D. Contents of notice. A notice shall set forth the name and address of the property and the occupant of the property, the nature and extent of the violation or offense, the identity of the person giving notice, the date of the sending or posting of notice, and a statement to the effect that a fine or complaint may be filed if the nuisance is not abated or if it is repeated.

- E. Duration of notice. Any notice given pursuant to this section shall be valid for a period of six months. Within six months, no additional notice needs to be given prior to the filing of a fine or private complaint.

§ 10-312 Temporary Waivers.

Upon written application for a Special Event Permit to the Township not less than 30 days in advance, a temporary waiver from strict compliance with the noise standards specified herein may be granted to persons for reasonable cause, as determined by the Board of Supervisors.

§ 10-313 Violations and Penalties.

Any person found guilty of a violation of this chapter by a Noise Control Officer of the Township shall pay a fine set by Resolution of the Board of Supervisors not to exceed \$1,000 per violation per the Second Class Township Code §1601(c.1)(2). Each day a violation continues, after notice, shall constitute a separate offense.

Any person found guilty of a violation of this chapter who fails to comply with this chapter in a summary proceeding before a District Magistrate shall pay a fine not to exceed \$1,000 per violation per the Second Class Township Code §1601(c.1)(2), together with the cost of prosecution, and, in default of payment of said fine and costs of prosecution, shall be imprisoned for not more than 90 days. 18 Pa.C.S.A. § 106. Each day a violation continues, after notice, shall constitute a separate offense.

NOTES FROM THE MERGE:

1. §307.g is already covered in chapter 2 of Code. Asked ZO if conflict.
2. May need to define “recreational”, “athletics”, “outdoor activity”.
