Re: Erosion and Sediment Control Plan, Review I  
Widmer Lot Development  
Smithfield Township, Monroe County, PA

Dear Mr. Widmer:

We have reviewed the above mentioned Erosion and Sediment Control Plan and find it adequate to meet the requirements of PA Title 25, Chapter 102, Erosion and Sediment Control.

The Conservation District reviews the Erosion and Sediment Control Plan solely to determine whether it is adequate to satisfy the requirements of 25 Pa Code Chapter 102.1 et. seq., the erosion control regulations of the Department of Environmental Protection (DEP). By a determination that the plan is adequate to meet those requirements, neither the Conservation District nor the County assumes any responsibility for the implementation of the plan or the proper construction and operation of the facilities contained in the plan.

The design, structural integrity, and installation of the control measures are the responsibility of the landowner and/or earthmover. Before any construction or earth disturbance may begin, the appropriate and necessary local, state and federal permits must be secured from the agency having specific permitting authority.

A copy of the Erosion and Sediment Control Plan must be available at the site of the earth disturbance activity during construction and until the site is stabilized. All control facilities, both interim and final, must be implemented on-site as outlined in the plan.

If you have any questions regarding this or other projects, please contact our office at 570-629-3060.

Respectfully,

A handwritten signature in black ink, appearing to read "David Lucykanish". The signature is fluid and cursive, with a long horizontal stroke at the end.
